## **Projects**

### **House Price Prediction Project**

Developed using linear Regression during AI/ML internship at Yhills, applying predictive analysis concepts.

### **Zomato Clone Website**

Technologies Used: HTML, CSS, JavaScript

Developed a responsive food delivery website inspired by Zomato. Created homepage layout, responsive navigation bar, and login/signup modal.

### **Weather Forecast Website**

Technologies Used: HTML, CSS, JavaScript, OpenWeather API

Built a dynamic weather forecasting website with real-time weather updates and integrated API to display weather conditions.

### **Shopify Jewelry Store Website**

Technologies Used: Shopify

Designed and customized a modern e-commerce jewelry store with responsive layouts and product sections.
